

PROFILE

Highly driven and detail-oriented **M.Sc. graduate in Artificial Intelligence and Robotics** with over five years of university-level teaching, research, and academic leadership experience in Artificial Intelligence, Machine Learning, and Computational Intelligence. Possessing a strong multidisciplinary background spanning **Data Science, Knowledge-Based Systems (KBS), Graph Representation Learning, Sentiment Analysis, Machine Learning, and end-to-end development using Python, R, and modern AI frameworks.**

Demonstrated a proven ability to bridge academic research and real-world applications through both research and industry experience. In addition to academic activities, accumulated one year of professional industrial experience as an **Artificial Intelligence Specialist** in a large-scale manufacturing environment, contributing to AI-driven solutions, digital transformation initiatives, data analysis, and advanced web-based systems development.

Beyond research and teaching, actively contributed to the advancement of computer science education and industry engagement by designing and organizing large-scale academic and competitive events. Served as the organizer of the **SPACE Programming Competition**, a national-level contest inspired by the structure and spirit of the ICPC programming championships. Additionally, designed and conducted **nine university-level gamification programs** focused on strengthening student engagement and university collaboration in the fields of Artificial Intelligence, Computer Programming, Discrete Mathematics, and Computational Thinking.

Recognized for strong leadership, project management, and community-building capabilities through organizing national scientific tournaments, inference-based competitions, programming contests, and applied mathematics leagues across leading Iranian universities. These initiatives successfully promoted problem-solving skills, teamwork, innovation, and interdisciplinary collaboration among students and industry stakeholders.

Alongside academic and AI expertise, highly experienced in **Full-Stack WordPress Engineering**, with advanced skills in **PHP development, Frontend Engineering, Plugin Customization, Technical SEO, and the development of multilingual, high-traffic, and enterprise-scale web platforms.**

Currently seeking a research-intensive PhD opportunity or advanced technical position where I can leverage my combined expertise in Artificial Intelligence, education, software development, and industry-driven innovation to contribute to impactful research, intelligent systems, and next-generation AI applications with global relevance.

Degree	Institute	GPA	Year
Computer Engineering	Hakim Sabzevari University	18.01	2023-now
Mathematics and physics	Imam Reza high school	17.6	2020-2023

RELATED COURSES - RESEARCH INTERESTS

Note: Please hover over the **Subject** column to view course resources, major implemented projects, or important course presentations.

Subject	Score	subject	Score
Bachelor's Project - Ticketing	20/20	Machine Learning	20/20
pattern recognition	19.75/20	Machine Vision	19/20
Fundamentals of AI	19/20	Computational intelligence	20/20
Knowledge base management	18/20	sets and fuzzy systems	19.25/20
Data Mining	17.5/20	security protocols	20/20
Language and Automata Theory	20/20	Discrete Mathematics	20/20
Multimedia - image processing	20/20	Multimedia - speech processing	20/20

PROJECTS

***Note:** To access the source code of the implemented projects on **GitHub**, please hover over the **project title**.*

Project	Subject	Skills	Date
Car Parking space	Enhancing Car Park Space Prediction via Large Language Models	python, image processing	Aug 2023
Sentiment Analysis	Enhancing Sentiment Classification Through Latent Topic Modeling	python, NLTK, topic modeling, BERT, SenClue	Aug 2022
Ticketing-frontend	Ticketing for Arashweb	HTML, CSS, Javascript, React, Ant Design	Aug 2020
Ticketing-backend	Ticketing for Arashweb	PHP, Laravel	Aug 2020

WORK EXPERIENCE

***Note:** To access the corresponding website, please hover over the **site name**.*

Raman Lingo

Isfahan, Iran / Remote2026

UI/UX Designer, Figma Designer WordPress Developer

- Designed the complete UI/UX structure of the Raman Lingo educational platform using **Figma**, with a focus on modern EdTech user experience, responsive layouts, and scalable design systems.
- Created high-fidelity website layouts, page templates, reusable components, and user interface patterns for multiple educational sections and service pages.
- Developed and customized the website using **WordPress**, including template creation, theme customization, frontend implementation, and responsive page development.
- Implemented custom coding solutions to support tailored layouts, interactive sections, optimized page structures, and improved user experience across desktop and mobile devices.
- Built scalable templates and reusable design components to ensure visual consistency, maintainability, and efficient future content expansion across the platform.

Firoozeh Tile Factory

Mashhad, Iran / Industrial Environment2025-2026

Senior AI Engineer, Website Developer & SEO Specialist

- Led digital transformation projects for a large-scale ceramic and tile manufacturing factory.
- Designed, developed, and optimized the official bilingual (EN/FA) industrial website.
- Implemented SEO, structured data, multilingual architecture, and performance optimization.
- Developed AI-based internal systems supporting quality control and industrial analytics.
- Collaborated directly with factory management to enhance digital infrastructure.

Capitol Data Analytics

United States / Remote2025

AI Engineer Full-Stack Web Developer

- Designed the complete user experience and interface architecture of the company’s data analytics platform using **Figma**, focusing on usability, scalability, and modern SaaS design principles.
- Developed and deployed the official corporate website, transforming high-fidelity UI/UX designs into a fully functional and responsive web platform.
- Implemented SEO best practices, performance optimization, and conversion-focused user journeys to enhance visibility and user engagement.
- Collaborated on AI-driven and data analytics initiatives, contributing to the integration of intelligent solutions and data-centric business workflows.
- Managed end-to-end website development, including frontend implementation, content architecture, technical optimization, and ongoing platform improvements.

Nilades Tile Company

Mashhad, Iran / Industrial Environment2025

Full-Stack Developer, Plugin Developer & SEO Engineer

- Designed and developed the complete corporate website for Nilades Tile Company.
- Built custom WordPress plugins, multilingual architecture (FA/EN/AR/RU), and advanced UI/UX flows.
- Optimized performance, indexing, product listings, and industrial-grade content structure.
- Developed visual configurations, ceramic product systems, and advanced search/filter engines.
- Provided ongoing technical support, SEO strategy, and website scaling infrastructure.

Fateme Parsaei Real Estate <i>Lead Web Designer & Full-Stack WordPress Developer</i>	Canada / Remote 2025
- Designed and developed a fully responsive real-estate website for a Canadian Realtor. - Implemented advanced property listing systems, search filters, and IDX-style structures. - Developed custom front-end and back-end features tailored to real-estate workflows. - Performed full SEO optimization, including schema markup, speed optimization, and Google indexing. - Delivered a high-performance, modern interface aligned with the Canadian real-estate market.	
Impedyme Company <i>Senior Software Engineer, WordPress Developer</i>	United States / Remote 2024 - 2025
- Developed and maintained dynamic, responsive WordPress-based websites. - Designed and optimized UI/UX for seamless user experience, improving engagement rates. - Implemented SEO strategies to enhance search engine ranking and website traffic. - Integrated and customized plugins for extended website functionality. - Utilized Elementor, Betheme, and various SEO tools to optimize website performance.	
Asaantech (Asan Afraz) <i>CRM / ERP / Odoo Developer</i>	Mashhad, Iran / Hybrid 2024 - 2025
- Designed and implemented modular-based CRM solutions tailored to business needs. - Customized and developed Odoo modules for workflow automation and process management. - Optimized reporting tools and data-driven dashboards for efficient decision-making. - Developed user-friendly forms and streamlined process automation within Odoo.	
Personal Website <i>WordPress Developer</i>	Mashhad, Iran / Remote 2024 - 2025
- Built and maintained a personal portfolio website to showcase projects. - Integrated performance optimization plugins for improved speed and efficiency.	
Sewersystem Company <i>WordPress Developer, SEO Specialist</i>	Mashhad, Iran / Hybrid 2024
- Designed and maintained a WordPress-based service website. - Conducted SEO audits and implemented data-driven optimization strategies. - Integrated advanced plugins for enhanced user interaction and functionality.	
Parsital <i>Software Engineer, Technical CEO, WordPress Developer, SEO Specialist</i>	Mashhad, Iran / Hybrid 2022 - 2024
- Led technical operations and managed e-commerce development projects. - Developed and maintained WooCommerce-based platforms with customized features. - Enhanced website SEO performance through strategic content and optimization. - Integrated third-party tools and plugins for seamless e-commerce functionality.	
Vosoughishop <i>Software Engineer, Technical CEO, WordPress Developer, Content Producer, SEO Specialist</i>	Mashhad, Iran / In-person 2021 - 2024
- Designed and developed a high-performance e-commerce platform. - Managed SEO strategies and content marketing to improve search rankings. - Created engaging content and optimized site speed for better user experience.	
Arashweb <i>Programmer (Frontend & Backend)</i>	Mashhad, Iran / In-person 2021 - 2023
- Developed a ticketing system with a modern frontend using React. - Designed and implemented backend architecture with Laravel. - Integrated REST APIs and ensured data security for user authentication.	

RESEARCH PUBLICATIONS & CONFERENCE PAPERS

- **Multimodal Deep Learning Framework for PTSD Detection during Sleep via EEG and Biosignal Fusion**
Presented at the 15th International Conference on Computer and Knowledge Engineering (ICCCKE 2025), IEEE Iran Section, Ferdowsi University of Mashhad
Authors: Danial Eskandari Faruji, Amir Akhavan Saffar, Mobina Ansari Astaneh
Developed a multimodal deep learning architecture integrating EEG signals and physiological biosignals for automated PTSD detection during sleep. The framework explores biosignal fusion strategies and advanced neural network models to improve diagnostic accuracy and robustness in mental health monitoring systems.
- **Enhancing Sentiment Classification Through Latent Topic Modeling (IEEE)**
Under Development
- **Enhancing Car Park Space Prediction via Large Language Models (IEEE)**
Under Review

TEACHING EXPERIENCE

Note:

Course Name	Date	Academic Performance	Professional skill	Teaching quality
Mobile development software	2nd S, 2021-2022	19.53	19.44	19.51
Office software laboratory	1st S, 2022-2023	19.16	19.23	19.17
Multimedia systems	1st S, 2022-2023	18.31	18.92	18.46
Graphic software laboratory	2nd S, 2022-2023	18.47	18.79	18.55
Fundamentals of Computational Intelligence	1st S, 2023-2024	19.15	19.28	19.18
Fundamentals of discrete mathematics	1st S, 2023-2024	19.03	19.16	19.06
Theory of languages and Automata	2nd S, 2023-2024	19.15	19.25	19.10
Python programming	1st S, 2024-2025	19.37	18.94	18.97
Applied linear algebra	1st S, 2024-2025	19	19.23	19.05
Discrete Mathematics	1st S, 2024-2025	19.49	19.25	19.43
Discrete Mathematics	2nd S, 2024-2025	19.20	19.10	19.73
Discrete Mathematics	1st S, 2025-2026	19.89	19.65	19.87

LANGUAGE COMPETENCE

- English**
- Speaking: Full Professional Proficiency
 - Listening: Professional Working Proficiency
 - Reading: Full Professional Proficiency
 - Writing: Professional Working Proficiency
 - IELTS Academic: In Progress (Mock IELTS Score: 6.5)
- German**
- beginner
- Persian**
- Native Proficiency

TEACHING ASSISTANT

Note: To contact the relevant professors via email, please hover over the **'Professor'** column, and to access each professor's university portal, please hover over the **'University'** column.

Course Name	professor	university	Date of presentation
Advanced Artificial Intelligence	Dr. Reza Shamsaee	Sadjad University	Spring 2023
Data mining	Dr. Javad Hamidzadeh	Sadjad University	Spring 2023
Internet of Things (IOT)	Dr. Behzad Bakhtiari	Sadjad University	Spring 2021
Software Engineering	Dr. Boshra Rajaei	Sadjad University	Spring 2021
Computer networks	Dr. Farnad Ahangari	Ferdowsi University	Spring 2020
Logica Circuits	Dr. Amir Bavafa Toosi	Sadjad University	Fall 2019
Linear Algebra (4 times)	Dr. Amir Farid Aminian Modarres	Sadjad University	from Fall 2018 to Spring 2020
Descrete Mathematics	Dr. Mahdi Salkhordeh Haghighi	Sadjad University	Spring 2019
Descrete Mathematics (3 times)	Dr. Ramin Zarei	Sadjad University	from Spring 2018 to Fall 2019

CERTIFICATIONS

***Note:** To view the received certificate file and GPA, please hover over ‘Course Title’.*

- **Applied Machine Learning in Python** University of Michigan
- **Applied Text Mining in Python** University of Michigan
- **Introduction to Data Science in Python** University of Michigan
- **Foundations of Data Science** Google
- **Get Started with Python** Google
- **Foundations: Data, Data, Everywhere** Google
- **Go Google Advanced Data Analytics Capstone** Google
- **Go Technical Support Fundamentals** Google Google
- **Go Beyond the Numbers: Translate Data into Insights** Google
- **Google Advanced Data Analytics** Google
- **Foundations of Project Management** Google
- **Machine Learning Foundations: A Case Study Approach** University of Washington
- **Sentiment Analysis with Deep Learning using BERT** Coursera project network
- **NLP: Twitter Sentiment Analysis** Coursera project network
- **Sentiment Analysis with Deep Learning using BERT** Coursera project network

HONOR AND AWARDS

***Note:** Hover over the **titles** to access documentation, which can be provided in both English and Persian **upon request**.*

- **Problem Designer and Judge of SPACE 7 and ICPC-Style Programming Contest (Iran)**
- **Problem Designer and Judge of SPACE 6 and ICPC-Style Programming Contest (Iran)**
- **Organizer of the 2nd National Applied Linear Algebra Tournament (Sadjad University, Iran)**
- **Organizer of the 1st National Applied Linear Algebra Tournament (Sadjad University, Iran)**
- **Organizer of the 1st National Discrete Mathematics Tournament in Iran (Sadjad University, Mashhad)**
- **Organizer of the 3rd National Inference Game League based on Discrete Mathematics Concepts (Sadjad University, Iran)**
- **Organizer of the 2nd National Inference Game League based on Discrete Mathematics Concepts (Sadjad University, Iran)**
- **Organizer of the 1st National Inference Game League based on Discrete Mathematics Concepts (Sadjad University, Iran)**
- **Top Guest Lecturer of the Faculty of Computer and Information Technology (April 2024)**
- **Top Student of the MSc Program at Sadjad University of Technology (2021)**
- **Top Student of the 2017 B.Sc. Graduation Class at Sadjad University of Technology (Top 5% of graduating class)**
- **Founding Board Member and Central Council Member of the 1st and 2nd AI & Robotics Student Scientific Association**
- **Instructor at Sadjad University of Technology since Age 22 (2022)**
- **University-Selected Top Teacher Assistant (2023)**
